PRE-CONVENTION FACULTY WORKSHOP Wednesday, April 5, 2017 • 8:30am - 4:30pm

REGISTRATION INCLUDES:

Full-day workshop • Continental Breakfast & Lunch • 6 Contact Hours

Learning to Use Debriefing for Meaningful Learning

Debriefing has been identified as an essential component of practice teaching for the development of clinical reasoning skills and to augment meaningful learning in students. The evidence supporting it as a powerful method for teaching and learning continues to grow however, good debriefing doesn't just happen. We need nurse faculty who are prepared to apply evidence-based debriefing methods that use Socratic reasoning and critical conversations to guide students to reflect in, on, and beyond the clinical experience. By transcending the traditional learning environments of today, students will be thoughtful clinicians tomorrow. During this one-day workshop, attendees will learn how to engage students in critical conversations during debriefing and how to use the Debriefing for Meaningful Learning method. Contact hours will be awarded for this program by the National League for Nursing, an authorized provider through the International Association of Continuing Education and Training (IACET). There is no partial credit awarded. You must attend the learning event in its entirety and complete all required assessments to receive contact hours.

Speaker: **Kristina Thomas Dreifuerst**, PhD, RN, CNE, ANEF

Dr. Dreifuerst is an assistant professor in the Indiana University School of Nursing. The teaching method she developed, Debriefing for Meaningful Learning (DML), has been adopted by schools of nursing and interdisciplinary schools in health sciences across the US, Canada, Australia, and the United Kingdom for use in simulation and other clinical settings.
